六、閱讀測驗(每題 3 分，共 15 分)

What do you do if you see a bear in the forest? Some might answer, "Play dead." The question is, "Does it work?"

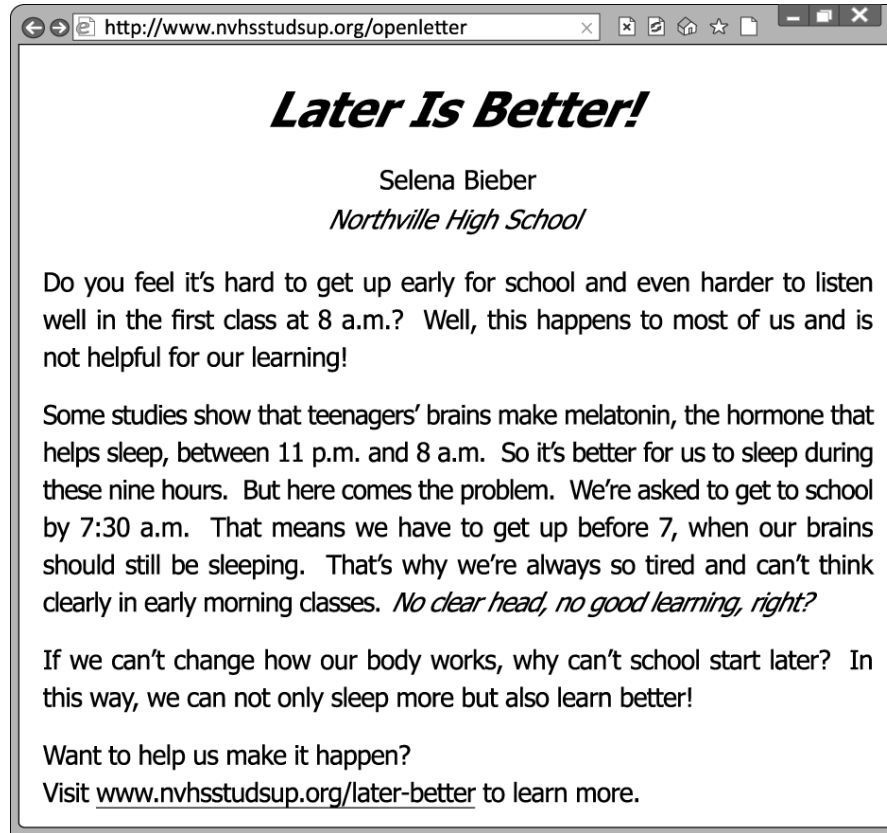

If you see a bear, don't be scared. Just leave, but don't turn your back on the bear. Slowly back away from it. However, it's another story if the bear attacks you. Brown bears seldom attack a person; most of the attacks happen because they want to protect their food, babies, or home. So, playing dead could be helpful.

However, playing dead probably won't work with predatory bears. Although brown bears don't usually want to hurt people, black bears may see people as food. They kill and eat animals, so playing dead in front of them could make you the meat on their plate. Also, don't try to run from them or climb a tree. They can do both much faster than you. You have to fight back.

play 扮演; 裝 work 有效
back 往後退 attack 攻擊
predatory 掠食性的
