What is the most expensive city in the world? According to a study on the cost of living worldwide, Singapore gets to keep the title it earned the year before. It's no surprise with the city's high prices for clothes, cars, and public transportation. On its tail are Paris, Oslo, Zurich, and Sydney, and rounding out the top ten are Melbourne, Geneva, Copenhagen, Hong Kong and Seoul. Basically, the top five spots are the same as last year.

In 11th place is London. The UK city is now as expensive as the world's most expensive city two years ago, Tokyo. If you are wondering about New York City, even though it is in 22nd place, it is still the most expensive city in the US. Interestingly, both Sydney and Melbourne were cheaper than New York city ten years ago. However, thanks to Australia's stronger dollar and increased cost of living, the two cities have moved up their rankings.
